EXPERIENCE

2025-Present	AXALTA <i>Product Owner (CMS)</i>	Warsaw, Poland
	• Led requirements gathering and backlog prioritization for Adobe Experience Manager (AEM) CMS, aligning stakeholders and driving product value. Owned acceptance criteria, backlog grooming, and release planning, ensuring value-driven prioritization, risk mitigation, and successful product increments. Delivered CMS features, enhancements, and integrations with end-to-end ownership in an Agile environment. • Acted as key liaison between business stakeholders and development teams, ensuring clear requirements and timely delivery. Defined and executed product roadmap and vision for CMS initiatives, aligning with business goals and delivering measurable outcomes. • Managed user stories, sprint planning, testing, and QA, ensuring high-quality releases and continuous improvement. Improved UX, workflows, and CMS performance through data-driven optimization, leveraging KPIs, documentation, and training to increase adoption.	
2023-2024	SAMSUNG SDS <i>AEM QA Specialist</i>	Warsaw, Poland
	• Executed manual and automated testing for Adobe Experience Manager (AEM) components and APIs, expanding test coverage and improving release quality. • Designed and maintained test cases, QA documentation, checklists, and defect reports, ensuring accurate bug tracking and faster resolution cycles. • Drove test automation and QA process improvements, while leading QA trainings to enhance team efficiency and standardize testing best practices.	
2020-2023	ERGO TECHNOLOGY & SERVICES. <i>Junior QA Engineer (2022 - 2023)</i>	Warsaw, Poland
	• Achieved 100% test coverage on Jira Xray for insurance calculators, ensuring high accuracy, reliability, and defect-free releases through comprehensive manual testing. • Supported QA processes by executing test cases, reporting defects, and collaborating with development teams to improve product quality and release stability.	
	AEM Content Manager (2020 - 2022)	
	• Led AEM content management strategy and operations, overseeing content lifecycle, governance, and publishing workflows to ensure consistency, quality, and scalability. • Directed cross-functional teams in content planning, optimization, and delivery, improving UX, SEO performance, and operational efficiency through standardized processes and best practices.	
2018-2020	NITRO <i>Content Editor</i>	Warsaw, Poland
	• Content workload management on AEM/Drupal/WordPress	
2017-2018	ACCENTURE <i>Project Specialist</i>	Warsaw, Poland
	• Content workload management on AEM
